Wait, weren't you arguing me that MGS3 was better than 4 not too long ago in MSN?

Well I haven't played MGS4 yet so..
I have an empty house this weekend, wanna play it?

My friend who lives down the street has it.. so..

But I did play the MG: O Beta, now that was excellent.

Aww, you don't want to play with me? v.v

I have more games, and a second controller! And ACK's PSN, which we can pester.
