You don't have to STILL cheat. You just have to cheat once! That is enough grounds to ban you.

You even said on a few different occasions that you used to cheat in Renegade. Including in this thread just under a year ago:

You cheated once in Renegade, that's all that matters. And just because Reborn is a mod of Renegade, it still uses the same engine, and you can still use the same cheats for Renegade. And even more over, even cheating in Reborn SHOWS you still have access and the means to cheat. You've run out of second chances in this thread:

rch=HORQWER#page_top , and now there is nothing more you can do. You're out of credibility.

I'm sorry, but you lose.
