He's an idiot, an admitted cheater, and a troll, but he's also 13, and nobody has been banned even for the same offenses, so let him stay. If he's that annoying, ignore him. Seriously, ignoring people works wonders. I've been ignoring madrackz and renalpha for a while.

If enough people stop responding to his incessant idiocy, he'll either leave on his own or he'll become a more respectable member of the forums. Either way, it's a win-win situation for all.
