Watch the youtube vid of this map. You will want to cry with happiness. Side by side with ren, ren x captures the tiberian plague imagery perfectly .

You also need to remember that in TS the tiberium infected areas were stormy and drew ION activity due to the Ionic discharge of the Tiberium.

Tiberium infested areas don't have sunny skies and rainbows...

Now I DARE fobby to do one that has meteor showers like in TS  
i want rainbows
