Now i never had this much trouble with ren
well i got this error message

iv gotten the same error message with game.exe and game2.exe and renegade.exe i put all them to admin and xp sp2 compatibility mode and still nothing except...game2.exe game2.exe loaded up ONCE but did'nt do it with RR but now gives that error 2 i have reinstalled ren completely but yet most of it its not working or crashing after a while... also every time i highlight some files in my westwood folder my explore.exe gets 50 % CPU and it freezes explorer.exe and i do got some windows services disabled in my back ground if they might have anything to do with it....but never stopped be from playing any other games

Also i have

1.027 update or w/e it is
rg
cp2
few skin files
3.4.4 scripts
rp2 scripts and files
RR (newest)
and stewies reticle pack which has a new binkw32.dll file..(i hope thats not it)
