R315r4z0r wrote on Wed, 10 September 2008 22:32 The account system sucks, however it is very, very easy to make a name.

All you need to do is in the login screen make up a name and then type in an 8 character password. If the name isn't taken, then BAM, new name created.

Yes, but how the fuck is a person playing Ren for the first time supposed to know to do that? They'd just think the online had been discontinued and go back to playing some other game.
