if you mean "install", just put the .pkg file in your renegade data dirrecotie:

The First Decade:
C:/Program Files/EA Games/The First Decade/Renegade (tm)/Renegade/Data

Normal:
C:/WestWood/Renegade/Data
(i think)

then just run the game and when *HOSTING* a game, go to the map selection, and click on the mod pakadge area, then select yours.
