Subject: Help when Starting FDS
Posted by Blkfort on Sat, 20 Sep 2008 12:46:42 GMT

Hi.

I need help.

I have BRenbot 1.52. When I started my FDS, it gives me error: FATAL ERROR: Can not write to ./log/biatch/main.txt

My BRenBot works fine in IRC. I just cannot start up my server. Can someone please help? Or perhaps is there a way to disable Biatch to stop this problem?

Thank you.

Regards,

Fort
