MasterShakehow do I change my avatar ingame, and set it so that it always comes up the same? and so it doesn't revert to the default skin?

i can't find the option anywhere in the options menu

I've no idea what you're talking about.
There are no avatars ingame.

If you're meaning avatars on this forum, read on.
If not, then i cannot help you - as your question makes little sense.

Speak with Crimson by joining the n00bstories irc channel, or send her an e-mail.

Crimson has disabled the option for changing avatars via the options panel, as it is open to abuse (inappropriate images). Every avatar for the forum must first be verified, then added by crimson herself.

Hope this helps.
