looks great btw , but wouldn't nod tanks be in red though not green? and maybe do what your doing there to the gdi tanks in green looks more awesome then what I have.

I could edit mine to be red

I'll try to make some time to edit some of the other ones. The ones you have are pretty good, more detailed, but the colors are kind of dull, bright neon green looks better in my opinion.

i agree the neon green is much more sharp. Then do the red for nod in the same style I think would be sweet. I love the blue nod logo. Thank you all for your help
