wittebolx wrote on Wed, 10 December 2008 08:13Reason it crashes is because the C&C server really needs players with scripts 3.x
if their are people on it that dont have it and you got let's say the EMP-Storm Crate (wich is based on 3.x) it could cause people to disconnect. but.. we have TT so when they finaly release their stuff it wont be a problem anymore

That's good to hear
