I'm sorry samous but what are you say?

Anyways the old Renegade was supposed to look more realistically for its universe. (mammoth tanks and falmers like that are still crazy for us today )

They where planning on using standard weapons they are using today. (m16,m203 etc). In that way I did look like the orig cnc. Only you are forgetting the most important thing and that is the comic style of cnc. Also this comic way did catch more people for renegade the the realistic one would have.
