MasterShakeWhich classes are considered support? I know the engineers and hotwire/technician, but are there any others?

and think some of you guys could share some tactics for these support classes? I am still on the hunt for a class to play (i don't like switching around all the time...i like to pick one class and try to stick with it as much as possible).

and btw, just a random question..

wtf is a 'Harvey'?

Snipers can be very useful for support in a tank war to take out the enemy's support. Also it isn't wise to stick to one character class, if you want to do that, choose map-specific guys.

A 'harvy' is a Harvester
