What would be the limit to poly's for vehicles? I have some other models but I don't want to bone them if they're too high.

Monster Truck - 2563
A90-53 - 2552
type1 - 2892
jeep1 - 2032
Basilisk - 16969 (too much)

those names are filenames of the models I have.

Thanks
