General Havoc In case you haven't see this already, it's ACK's post from the pitts about the progress of the modification. Looks like they have been working hard to get it done so a big well done for their hard work.

Aircraftkiller Okay, it's like 7:57 AM, I've been up all night and day working on this fucking thing...

Early yesterday morning, I sent off the new level files for Forest of Illusion and Zama Flying to Dante, along with the new Turret I made up.

It's in his hands right now. I don't know where he is or what he's doing, but he's presumably at work right now and will be back home later to continue working.

More as it comes, now let me pass out in peace so I can get some rest...

_General Havoc

Yeah, he posted that on the Renalert site as well....about two days ago. No information since.
