Frontier Psychiatrist wrote on Sat, 31 January 2009 08:32holy shit, you guys somehow turned this into two fanboywars in one thread. Its not only about browsers (that was kind of predictable looking at the threads name), but also about Antivirusprograms. good job you, arguing about things that are all the fucking same anyway.

Ah, but so very wrong you are. If they were all "the fucking same anyways", then they would not exist separately like they do.
