3.16Ghz Dual Core E8500
4gb RAM
1TB+ Hard Drive Space
2x GeForce 9800GTX+ in SLI
Windows XP x64 SP3 MCE Edition

I would post my connection speed but I'm download some important Lost episodes off of Usenet right now and that would damper the results. (God forbid I pause Lost episodes). My connection is 10mb though, 1024k down a second.
