Oh, sorry, I'm new so I didn't know that this was in it to

But it says: "Download this(<http://apb.game-maps.net/index.php?action=file&id=523>) and run it and select only "WOLAPI" install. It will install the latest version of WOL."

but when I click on the link, I'll get in a website with 52 downloads, so which one should I choose?
