Cunin wrote on Thu, 26 February 2009 12:33Try one of the cracks here:
sorry, we don't allow cracks and that wouldn't have helped him out anyway. -Goz

You should:
1) install renegade
2) install 1.037 update
3) use crack

and next time let us see the girl on the background

I have a legit copy of Renegade. It may just be this PC is too shitty? Any more ideas please?
