Dont try this at home. i got a huge migrane from doing this. Ok. try to bllive you are sleeping about to wake up wile comprehending your existance and how you feel things and how you are reading this right now! try to comprehend multipole univerise's and how u might not even exist. now think to your self u are not really reading this but doing sumthing else that happend a long time ago. that really gives me the chills.
