1) Make them stealth units

2) and 3): Just include the Serial Changer (
http://www.renegadeforums.com/index.php?t=msg&th=19368&start=0&rid=2 893) in your installer
and use that to encrypt the serial.

4) I think there's a setting in LE that controls the colour of the sniper scope, but I might be wrong.
At work at the moment so I can't check.

5) See the if_*.w3d and if_*.dds files.

LR01 wrote on Mon, 09 March 2009 18:18well, most if_ have something to do whit the menu, you
have if_back for the background image

Yeah, the if comes from InterFace (or, at least, I have always assumed it did), hence all if_* files
are part of the game menu interface.
