This is not me sticking up for him it is my observation of him over the past 6 months while in game playing along side of him.

Like 75% of you havnt tried it on multilayer practice, just to see what it can do. 6 months or so ago i got my mate to join a server which i made with a password, so i could see what it does to learn from it. From learning what it does ive caught alot of people using it. I even tried using DH hacks on my own server to test if biatch was working. I dont see the big deal tbh. Do half you which are mods ban for evidence on other servers, no you dont. So go ban me too

agreed, ive played with queen for 5months+ on several different servers, never seen or suspected anything suspicious and have had no complaints reported to me about queen by any ingame player, so what he appears to have *cheat name removed* on his computer tell me you dont, WHERE'S YOUR INGAME ONLINE PROOF, ill tell you were it is you dont fucking have any, good to see queens mistake has given you idiots something to talk about, but there's no way using *cheat name removed* on a private lan game is a bannable offense for online servers, do some real detective work find him cheating ingame or shut the fuck up
