I was bored and seeing how my skin was going so far when i encountered this and said hell see if its common.

dont remark about the gun like i said i was bored and seeing how the mod was so far it's how i do mods dont judge me

Anyone else seen it?
Mendoza and if it can be seen (my comp moniter sucks ass) a soldier in the hand of nod stuck in the window sakura does it all the time so im wondering if this is common (im seemingly redundent)
