Brenbot 1.52 (latest build) but also does it with brenbot 1.51! using the full install package for brenbot, nothing else.

Edit: I restarted server and cleared the ssgm gamelog of today and it doesn't happen anymore. However, I still want to know why it happened, if possible, to be sure it doesn't happen anymore. Brenbot still worked correctly during this error spitting, BTW.
edit2: it started doing it again.
