For those that like Tiberian Sun I have decided to release a texture pack which changes the standard maps making them appear to be more like maps in the Tiberian Sun universe where the terrain is mainly sand and rock.

I have also decided to release the Tiberian Sun EVA and Cabal sounds. Although I did not make them myself (not sure who did), many people have asked about where to get these. I also did not make the textures. They are from the map C&C terrace made by Titan1x77.

Below are links to videos which show what Renegade is like with these skins and sounds on. http://www.youtube.com/watch?v=aRcctNv0u-Q&feature=channel_page http://www.youtube.com/watch?v=Yu3UEJSXFKo&feature=channel_page

Enjoy
