Hey, so i just wondered if anyone have/can make the beta pistol for me.. i've been messing around the always.dat and found a nice pistol i beleave is the beta one, and i wondered if anyone can help me make it work in renegade :/ i've posted a topic over at renskins but that dident work out to well, as the texture was to small :/

file: http://www.mediafire.com/?tz3zmbwrmm1
image:

(PS. I really dont mind if it only work in 3rd person, since i almost never use first person view)

(also i remeber seeing this in some screenshot over at EA in the HUD, so i guess it worked sometime??)

ive been digging and found this:

look at the HUD epic nice if i can say so
