Now for the least downloaded skinpack ever

There are errors on the skins, such as overlapping logos, but I don't particularly care because this isn't going to be used by anybody, I'm betting.

The members chosen were based off of mostly postcount and also being active.

Anyway, here's what's included:

Goztow GDI Logo
Crimson NOD Logo

Cheesesoda Hummvee

R315r4z0r MRLS

BlueThen APC

SSnipe Medium Tank

CarrierII Mammoth Tank

danpaul88 Buggy

IronWarrior Artillery

RenX APC

jnz Flame Tank

ErroR Light Tank

Jerad Grey Stealth Tank

zeratul2400 crate

"I DESLIKE YOU" City Road Sign

Enjoy the fail.

I'm gonna laugh if anyone actually uses this.

Quality NOT included.

MODERATOR EDIT - "LeeumDee" fixed a small error (OK, a very large error) in the pack. THIS LINK is a better pack. For those of you who want the true "Quality NOT included" option, download the attachment below this. - CarrierII
