Now for the least downloaded skinpack ever

There are errors on the skins, such as overlapping logos, but I don't particularly care because this isn't going to be used by anybody, I'm betting.

The members chosen were based off of mostly postcount and also being active.

Anyway, here's what's included:

Goztow GDI Logo  
Crimson NOD Logo

Cheesesoda Hummvee  
R315r4z0r MRLS  
BlueThen APC  
SSnipe Medium Tank  
CarrierII Mammoth Tank  
danpaul88 Buggy  
IronWarrior Artillery  
RenX APC  
jnz Flame Tank  
ErroR Light Tank  
Jerad Grey Stealth Tank

zeratul2400 crate  
"I DESLIKE YOU" City Road Sign

Enjoy the fail.  
I'm gonna laugh if anyone actually uses this.

Quality NOT included.

Toggle Spoiler

MODERATOR EDIT - "LeeumDee" fixed a small error (OK, a very large error) in the pack. THIS LINK is a better pack. For those of you who want the true "Quality NOT included" option, download the attachment below this. - CarrierII
