The one and only argument 'the PEOPLE that PLAY the game do NOT like it' is enough to blow away all of your "fix" theories btw, Spoony.

The people playing in our server do not like it, we do not like it, therefore we do not use it. Just because of this simple fact you start a random rage about our position on the listings (which jelly got on a 'first come first serve' basis) for all the people that still don't use 3.4.4.
