(and they have the fucking nerve to call me or TT dictators? first they say "fuck off, there's nothing you can do about it" then they want to ban me for nothing more than voicing an opinion they're afraid of)

Not that I don't have fait in you Spoony, but perhaps it'd be good to have more people in the conversation then? This because from what I see you can get quite angry, and I suspect that jelly is not really different. perhaps someone like Gozy/StealthEye, as a kind of neutral, balancing factor in such conversation?

I already answered that. I'm perfectly capable of staying objective, no matter how pathetically my opposition is acting. I proved it at clanwars, I proved that in the pointsfix debates, I proved it in the ladder thread on jelly (why do you think they're so keen to ban me?) and I'm proving it again right now.

I didn't say anything about not being objective. I just suggested that such conversation could possibly benefit of having 3 people instead of 2. Particularly when 2 of those people seem to oppose each other so much.

Not saying this is the case, but it does look that way.
