grant89uk wrote on Wed, 07 October 2009 16:34Jelly gave us permission to use the one we have. There were log files which showed crimson login in on it and causing our server numbers on xwis to crash to 0.

It was essentially sabotage.  
Didn't she explain this?

grant89uk wrote on Wed, 07 October 2009 16:34Not to mention word filters on this forum so that we could not advertise our new community at all.  
Yes, that's true, and if you remember I spoke out against it.

grant89uk wrote on Wed, 07 October 2009 16:34You keep talking about monopolies well if crimson would do that sort of thing to bring down a newly formed community I hate to think what would happen if she had any more control over anything else in renegade such as server nicknames.

Not just Crimson - TT as a whole, including me. I've already said that I would swear to do everything possible to make sure they were used fairly, and I've never broken my word. Compare this to "fuck off, there's nothing you can do about it"...

grant89uk wrote on Wed, 07 October 2009 16:34Your example about BI and Blackcell etc deserving it more is valid in a sense. But it totally contradicts your previous arguments, because surely NO NEW community will be able to deserve an a00 nickname more than those.  
No, no contradiction at all. Jelly's chokehold on the game listings hurts everybody that isn't Jelly or in Jelly's current good books... whether old, respected and deserving communities like blackintel and blackcell, or any new community that isn't Exodus.

Gladiator wroteI'm getting pretty worried - Crimson and Spoony are apparently teaming up to take on the Jelly community.

You're saying that more than one person has opinions against your chokehold on the game listings? Well, thanks for the info. Of course I'm hardly the first person to speak out, am I?

Gladiator wroteFind me the quote, Dr. Fucko, where anyone ever said we follow the what the majority wants 100% of the time?

Generally, yes. Always, no.

Easy tiger, no need to get hostile just because I expressed the rather justified worry that you'd "do what the community wants", as seems to be the usual policy.

tellsson wrotewell spoony,  
you said it many many many times in your essays:

"Now, even though the anti-pointsfix crowd has lost every single debate on the subject." (<< your words)

well i`m in the antipointfix-crowd, and i brought a valid reason (a proofed one)why i dont like the pointmod.

so, i caught you liyng.

You caught nothing of the sort. You totally failed to refute the absolutely staggering amount of arguments on my side, nor explained why new players should be inculcated into the same bullshit system just because YOU'RE used to it. That's not "winning the argument".
