raven wrote on Wed, 07 October 2009 19:39 You've also dodged this repeatedly:

Quote: Lastly, this is all for nothing when the TT patch is released. It sorts it by players ingame instead of nicks (which is the better system anyhow, and it should have been like that from the start). Unless TT is going to be another year, what's the point in all this?

No, I haven't dodged it at all. I've REPEATEDLY asked someone for a very clear clarification. And everyone and their mom has attempted to tell you what it does, including the very post above yours: when TT is released, it will (by default) arrange the game listings in order of greatest playercount to least playercount.

To illustrate:

Current System

a00 11/40
a000 27/40
a0000 16/40
a00000 34/40

New System

a00000 34/40
a000 27/40
a0000 16/40
a00 11/40

Is that good enough?
