I didn't read the 9 pages after the first page, I just felt it necessary to state this for the record:

Spoony's right, we've (Jelly) got as close to a monopoly as you can get in Renegade. Although you know this, you may forget that Jelly got arguably the second most active gaming community in Ren when I allowed him to Jelly-brand my servers and stepped back for a couple years, significantly increasing its presense. It didn't just start that way. I find it hard to believe if this hadn't happened that Jelly would have 2 large servers that are significantly active. Put another way for the sake of discussion, Jelly is two communities put together.
