Spoony wrote on Thu, 08 October 2009 23:30I didn't say that was the case... just put forth the argument that this authority is better managed by a group that has actually earned EA's blessing on something important to Renegade AND has already proven a high level of accountability, instead of a community who by their own admissions doesn't consider themselves accountable to anyone, and reacts violently to criticism.

Except that's not what you said at all, you said that you "inferred from Crimson's posts" that TT has both permission to patch Renegade AND to manage the XWIS listings. You did not specify that they hadn't gotten explicit permission for either.
