I thought it would be a good idea to have some statistics in the help screen insted of the useless old help screen. Using resource hacker i ported some statistic and a map there. It didn't show up the textures etc. so maybe tt can make something like this:

Toggle Spoiler

ok maybe the map idea isn't so good, but you can see your friendlies or a placed beacon in the enemy base etc. but the statistics would be awesome. Mostly the game time, shots fired, accuracy, enemies killed and some others to occupy space. The current help screen doesn't really "help".
