You will still need renegade public tools and gmax. And install renx game pack into gmax. You will have to import deadeye/bhand model into gmax then apply the texture (M). And then add a scrolling stealth_effect.tga texture on top. I can't provide the tutorial because renegadehelp.net sucks and has broken images
what Tut are you looking for i might be able to get it.
animated computer screens & boning a char (both are availiable on the old renhelp)
