If I had a better comp I'd play alot more. Sadly the only comp in my house that can play it kinda died, this one can't, really.

But the time I did play it, I loved it. I'd help you out (and myself along the way), but yeah, sorry.

Still, TF2 is awesome. It's one of the few online FPS's that actually has held my interest for more than a day. The other being Renegade (and its mods).
