I know the complete story, time for a history lesson for you.

Because your so stupid and clearly can't remember anything, I've explained it for you in a step-by-step guide.

Part 1: cAMpa created the original building bars and gave them too his community members (uT and RC)

Part 2: RC-Endgegner gave them to you without permission.

Part 3: You gave them to scrin and di3hard (without permission)

Part 4: You then gave them to all your friends and they shared and released on forums such as Jelly w/o the source code.

Part 5: cAMpa finds out that you've shared HIS files and bans you from Ren-Com servers.
