danpaul88 wrote on Mon, 01 March 2010 23:24If both flag presets use the same W3D file then you can only update both of them at the same time, not individually.
i don't have acces to LE i think i saw the texture once.. it had both textures on it. But i want to make something similar, 1 w3d and 2 textures. I still have no idea how to do it, how to combine the textures etc. Any help?
