because some people call black people monkeys as a racial slur

Of course they do, but who the fuck cares? "Cracker" and "pinky" are apparently racial slurs towards whites. That doesn't mean I'm suddenly forbidden from saying the words "cracker" and "pinky" in the proper context. Wheras if you even remotely THINK of a black person as a monkey or compare them to it, AUTOMATICALLY RACIST.

Even if your intention was more towards "You're as stupid as a monkey" (Which can be said to ANY race, by the way). But yet it's only bad towards black?

No, fuck that shit.
