I don't see why it's necessarily bad to have a game being anime-ish in style. You're just being an uptight faggot for automatically hating anything remotely Japanese in style.

You really do feel sorry for Sonic. If any of you (and you probably have) saw the things obsessed and obese fans did to him then they may have just stomped over your childhood.

Sonic was awesome until a select group of people got onto the internet and identified themselves as being anthropomorphic animals in human bodies.

It makes me shed manly tears for a once awesome series. It doesn't help that Sega does nothing but shit out continuously shitty Sonic games, either.
