IRA/ETA are muslim as well? I think that terrorism isn't exactly locked to one religion. Also think of Falun Gong in China as another example. While China is more off the bad ass there (human rights and such), they do present Falun Gong as terrorists.
Don't forget that the resistance in WWII where terrorist to the regime in Europe as well.
And your trying to say what? Everyones a terrorist?
Everyone is a potential terrorist, depending on the situation.
No
Ok. Good arguments.

So if some foreign government invades your country, lays down ridicules restrictions and such, you'll do nothing to stop it? Because if you do try to stop it, you're a terrorist from the foreign government point of view. It's all in the eye of the beholder.

There is a reason there is a saying like: History is written by the victor.
But the goverment is not rightfully there, so its not Terror, its freedom fighing. Take back what was ours. so "No"
