cheesesoda/jball is quiet good at building websites and has done so in the past making good sites. Pretty sure he is available for the job. Though he no longer posts here, he is active in his site. Here's his contact info (from his site):

AIM: reydela guerra

MSN: jake@cheesesoda.com

Yahoo!: j\_ball430

Skype: cheesesoda

It would be great if you could get something going...he may be able to help you out.

wish you the best...
