Sorry about the spam its normally not my nature and I dont know how it happened. Had web sending issues "resend" maybe thats how.  
I already know all about the My info and manage accounts. also its in my "Internet" folder not data. Should it be in my regular folder the Wolapi file?  
I just cant get to the account and password login screen.

Thanx for help glad to see ppl still play this.

[Edit] Sorry I have Wolapl 1.20 Is that what you meant by WolapB  
if these are 2 different things I was not able to google search WOLAPB which u mentioned in ur last reply. I also moved WOLAPI form the internet folder the the renegade directory and no change happens when i reload renegae. I still cant bring up the login screen.
