jonwil wrote on Mon, 30 August 2010 00:28That zip file contains game.exe which is NOT what I need (game.exe is identical on all language versions of renegade).

I need other files from the install CD, not game.exe. I have no way to know which files I need without knowing the name and size i bytes of every file on the install CD and every file in the game1.cab on the install CD and its size in bytes.

Sorry about my English.
Now that I understand it I will make a ISO file next time.
