Must've been, because there's just no way that in 4 seperate situations he shoots me and gets nothing but headshots. I'm at the PP and he's by Ref door (on Hourglass). I hop out of my flame tank, and my health immediately plummets before I'm out for 1 whole second. That happened twice.

He might not have Big Head, but he has something, because he never misses.

I'm not trying to sound like a whiner; just keep an eye out for him.
