Subject: IP Adress detector?
Posted by msgtpain on Fri, 29 Aug 2003 16:45:34 GMT

Here are all the nicks and IP's for that player that have been on The Pits server

lemursucs:68.119.245.26
vapochil:68.119.245.26
vapoman:68.119.245.26
gmcrod:68.119.245.26

This is one more player on the same Class C subnet. It may or may not be the same player. If it is, then they don't have a dynamic IP address and all you can do is ban the nicknames

spngbobpc:68.119.245.187
