C&C: Continuum was going to be an MMORPG. It was gonna have some pretty awesome shit from what I recall, but it got trashed along with the rest of Westwood's projects (Renegade 2, C&C: Incursion (AKA C&C3).

A C&C MMO would be great, but if it were made by EA... God, it'd be Lord of the Rings Online and Dragonball Online and Star Wars Galaxies and every other MMORPG that everyone wanted but failed so fucking hard and fell into the cliché bullshit that fills up every other MMORPG all over again.
