I kind of lost hope in both Japan and everywhere else when HSotD got more attention and hype than Shiki

which, Shiki is about the only worthwhile anime this entire year

HSotD was only looking promising during the first episode.

Then it dropped dramatically.

Also, have you heard of Bakemonogatari?

Heard of it, it looks pretentious as fuck

also I hate the director, goddamn closeups on everything

seen Arakawa and Dance in the Vampire Bund, both had too much of that shit for me to handle
