But GOD DAMN are you annoying.

Here's the key factor: nobody gives a shit.

Tell your friends and family how you argued for 17 pages about how right you are on this subject, and tell me what they say. If they say anything other than "you're a fucking loser, I don't give a shit" then I'll stfu. Promise!

certainly nobody outside of renegade could be expected to give a shit, which is why this discussion is happening on - wait for it - a renegade forum, i.e. a place which exists for the sole purpose of talking about renegade. had you gone to your real life friends and family and told them how seriously you used to take this game (and how desperately you tried to pretend you didn't), they'd have been equally contemptuous.

as for people involved with renegade - if you haven't noticed at least two people have been absolutely infuriated by this thread. it's very hard to argue hitman "doesn't give a shit", look at him

btw here's the last thing i said to you, any comment on this?

Boomer: I argue on the internets (and I always win) because it makes me feel better about myself
Spoony: i'm not seeing what your problem is with someone being right about something. given that you don't seem to mind, for example, simpee continually lying over and over and over again rather than just conceding he's wrong about something, cos guess what, he's tried that in every single thread in which he's argued with me.

Hitman and simpee are just as lame for continuing the charade, obviously. fwiw half of what they're doing is trolling you, and you're such a n00b that they keep getting to you.

Now, my friends and family do know what a renefaggot I used to be, but they also know that I was 15 at the time and didn't know any better. They expect more for a 20 year old university student, and they would certainly expect even more from you, seeing as you're like 5 years older than I am.

Now what do I think about you being right? I'll tell you: COOL STORY BRO.
What do I think about simpee being wrong? COOL STORY BRO.

I don't give a fuck, both of you should grow up. I know it doesn't affect me, I don't even read your posts. I'm just astounded by the fact that every time I look at this forum, the page count of this thread grows by 2. How can 2 (I'm assuming) logical and maybe even educated individuals drop to this level?

Just my 2 cents
